Week 6: Make Education Fun

Whoever said that learning isn't fun didn't live in Northeast Ohio! Thankfully, there are so many things to do in our area that are both fun and educational. In fact, your kids might not even realize that the fun activity they are doing is also educational.

This week, make learning fun by choosing an educational activity for your family to enjoy

Pro Tip - Set Realistic Expectations

Sometimes children (and adults) hesitate when asked to do things out of their comfort zone. Because of this, your kids may push back and complain if you're introducing a new activity. Don't let it discourage you! Instead, explain that they won't know if they like it until they try it. And who knows, they may discover a new favorite thing to do!!
